DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicant's representative, Mr. Juan Marquez, on 8/23/2006. The application has been amended as follows:

Inserts --“in the server”-- after the word “memory” in line 2 of claim 12.

Allowable Subject Matter

2. Claims 1, 3, 5-9, 11-13, 15-18, and 20 (now amended 1-15) are allowed over prior art of record. The following is an examiner's statement of reasons for allowance: Dietz (US 6385586) discloses a language translation method in that a human utterance in a first language is captured. The captured speech is transmitted to the server where it is converted into text utilizing speech recognition engine. The converted text is then translated into text of a second language. Translation result is then forwarded to the user (*referring to reference*). Sukeda et al. (US 5854997) teach a portable translation device having models sentences registered thereon, which are displayed on the portable device for user to select (*referring to reference*). Both Dietz and Sukeda et al.

fail to specifically disclose that the model sentences are retrieved from the server for displaying on the mobile terminal, and the speech input and the mobile terminal are communicatively connected via an Internet access network and a telephone network, wherein said Internet access network is used for at least transmission to the display of the mobile terminal of said at least one of the registered sentences, and wherein said telephone network is used for at least transmission to said speech recognizer.

Furthermore, it would have not been obvious to one of ordinary skill in the art at the time of invention to modify Dietz and Sukeda et al. in order to obtain the claimed invention.

Therefore, claims 1, 3, 5-9, 11-13, 15-18, and 20 (now amended 1-15) are allowed over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
